Commissioner for Patents

The response filed 5 May 2003 is not fully responsive to the Office Action mailed 11 November 2002. In response to rejection of claims 89-100 and 109-116 under the judicially created doctrine of double patenting, Applicant states, "Applicants will address the double patenting issue upon a finding that the claimed subject matter is allowable but for the double patenting rejection" (page 9). Applicant is reminded that in order to be entitled to reconsideration or further examination, the applicant must reply to every ground of objection and rejection in the prior Office action. In the instant case, Applicant must agree to file a terminal disclaimer upon allowance of the conflicting claims, amend the claims such that they are no longer conflicting or point out why the rejection is in error. A rejection will not be held in Abeyance.
